➔ **bizhub PRO 1050: the production printing system.**
Diversity, performance, greater productivity

Exceptional speed, versatility and reliability: the bizhub PRO 1050 digital production system has it all. The superior Konica Minolta technology enhances your business flexibility and sharpens your competitive edge, bringing you and your customers a level of professional quality printing at a pace never before seen in this class. Providing maximum productivity, professional reproduction quality and a complete set of options, it sets new standards in price performance. And what's more, it's an investment that will deliver immediate returns.

1 **A system that fits perfectly**

No matter what your production system requirements are, there is a bizhub PRO 1050 configuration to suit your needs. Its modular system concept lets you create the configuration that is exactly in tune with your production and finishing requirements, and because it can be adjusted and tailored to your needs as your business grows or customer requirements change, you can rest assured that you have made a good and secure investment.

2 **The greater performance principle**

Improve quality and increase productivity while reducing costs with this amazingly versatile and productive system.

- Handles media up to 300 g/m² for one-sided (1/0) printing and up to 244 g/m² for two-sided (1/1) printing.
- Paper sizes up to 324x460 mm for maximum image area of 314x457 mm.
- Unique finishing features meet a wide variety of requirements.
- Professional precision, control and image quality.
- "On the fly" paper and toner refilling for continuous operation.

3 A commitment to reliability

CS Remote Care (CSRC) is a remote diagnostics system that ensures the continuous uptime of each bizhub PRO 1050 system in the field, regardless of its location. CSRC offers the following benefits:

- Highest possible system uptime.
- Emergency calls.
- Pro-active support.
- Preventive maintenance and parts supply.
- Automated counter reading.
- Analysis of system performance.

CS Remote Care

4 A blueprint for maximum productivity

The bizhub PRO 1050 is the premier choice for high-volume printing environments with great speed and 100% efficiency.

- Top speed up to 6,300 sheets per hour (A4).
- Maximum productivity speed up to 3,660 sheets per hour (A3)
- Maximum duty cycle of up to 1.5 million pages per month.
- Up to 9,000 sheets paper feed / up to 10,000 sheets output capacity.
- Online punching and stapling for accelerated processing.
- Trolley-mounted paper stacker(s) for direct transfer to nearline finishing stations.

5 A solid foundation for solid performance

The bizhub PRO 1050 is the workhorse you can always rely on. Designed for high-volume printing environments, it offers levels of precision and reliability that are second to none.

- Touch screen operation ensures ease of use with one interface to the professional user.
- The paper handling technology features airflow assisted feeding rollers for each paper tray while the base engine also incorporates a double feed detection mechanism at both registration and feeder areas. Consequently, maximum uptime is assured to deliver maximum productivity - day in and day out.

→ Make the most of your possibilities

At the end of the day, success depends on how well you meet your customer's requirements. That's why you need a system that does the job quickly, reliably and to the highest possible quality.

mixplex**

→ Step up a gear and really get moving!

An enormous paper handling capacity. Rapid printing speed. Soothing reliability. Easy integration into your existing printing and network environment. Altogether, the bizhub PRO 1050 ensures you make the most of the precious time available.

- Printing of documents can be programmed down to page level with mixmedia (e.g. coloured paper fed from different trays).
- Switching between one-and two-sided printing is possible during operation as well as accessing different trays (mixplex).
- A post-insertion unit allows the introduction of pre-printed colour sheets to jobs.
- Insertion of colour covers
- 100% productivity when punching and stapling.
- Subset finishing (stapling and punching).

Getting closer to your **customers.**

A multi-talented system

The bizhub PRO 1050 prints and copies at unrivalled speed and this with the highest precision. But its scanning capabilities (only available for bizhub PRO 1050 copier-printer version) are also of great value to your working process. Whether Scan-to-eMail, -to-FTP, -to-HDD or -to-SMB, as PDF, or TIFF via Twain, it goes the extra mile you require for complete workflow efficiency.

The running cost advantage

In the printing sector and high-volume production environments, maintaining the highest possible cost-benefit ratio is crucial for success. The bizhub PRO 1050 significantly raises the benchmark criteria in this product segment by ensuring sustainable, reasonable running costs. These future-oriented digital printing systems from Konica Minolta deliver the productivity gains and economic potential you deserve.

Finishing

for lasting impressions.

➔ **Quality, speed and efficiency – from start to finish**

In the end, it all depends on the final result. And when it comes to finishing, the bizhub PRO 1050 really shines. The Konica Minolta production system accommodates your customer's wishes - with speed, simplicity and the utmost satisfaction. From numerous online punching and stapling options up to six sophisticated folding functions; the results speak for themselves.

- The 50-sheet booklet-maker provides tangible added value by enabling the production of brochures with up to 200 images including automatic image shift and trimming.
- Meeting professional printing accuracy standards, the system boasts offset precision with a tolerance of less than 0.5mm in two-sided printing.
- Stapling with variable staple-length of up to 100 sheets with 100% productivity (up to 244g/m²).
- For nearline finishing work, the system's 2 x 5,000 sheets trolley-mounted stacker units allow transferring the output to existing finishing facilities.

The bizhub PRO 1050 is an investment in Konica Minolta quality for your business success.

5 out of 9 system configurations

System 1

main body, copy/print engine
 + paper feed unit (PF-701)
 + folding unit (FD-501)
 + booklet maker (SD-501)

System 2

main body, copy/print engine
 + paper feed unit (PF-701)
 + folding unit (FD-501)
 + staple finisher (FS-503)

System 3

main body, copy/print engine
 + paper feed unit (PF-701)
 + folding unit (FD-501)
 + booklet maker (SD-501)
 + staple finisher (FS-503)

System 4

main body, copy/print engine
 + paper feed unit (PF-701)
 + large stacker (LS-501)
 + large stacker (LS-502)

System 6

main body, copy/print engine
 + paper feed unit (PF-701)
 + large stacker (LS-501)
 + large stacker (LS-501)
 + staple finisher (FS-503)

Systems 1-4 and 6 are five out of nine standard system configurations available.

For information on systems 5, 7, 8, 9, please contact your local sales representative.
